What Parents Say About Their Children Attending ATA

Our son started struggling in third grade. It became apparent that he was not receiving the individual attention he needed as the class sizes at his grade school are just too large. He was starting to fall behind. It's been six months, and he is no longer struggling – instead he is learning and loving it! We are so grateful!

Lisa, Mother

Our daughter was teased by the other children at her old school. It got so bad that she was sick every morning before school. We needed a school where teachers kept order in and out of the classroom. After just a week, our daughter started getting better. The positive, respectful, and safe atmosphere at Adams Traditional Academy is what every child needs so they can learn.

Jennifer, Mother

My daughter is pretty smart and she was just bored and got into trouble at her old school. She's a good kid but just wasn't being challenged. She already knew most of the stuff they were teaching. At Adams, she is challenged every day, but in a good way. Her teachers make sure that she has what she needs to stay engaged with learning. The behavior problems are gone – I am really relieved!

Mark, Father

Why Children Thrive

Traditional Education Increases Academic Performance
Our Educational Approach Includes:

PROVEN CURRICULUM

Our traditional education is research based and focused on how students learn best, not just test memorization. Phonics, reading, penmanship, math, history, science, music, art, Latin, and physical education are part of the solid education that equips students for future academic success.

TEACHER LED

Well-trained teachers are a key part of our educational philosophy. The class is teacher led and students' desks all face the front of the room so students can easily see the teacher. Our teachers are experienced and committed to each student's successful learning experience.

INDIVIDUAL FOCUSED

 Each student is an individual. In the classroom, no desks are grouped together. Personal attention and individual effort matter. This helps every student know that they are important. This approach is in contrast to a group approach where students are placed in groups to learn together.

OUR CURRICULUM

Penmanship

Math

Reading

Spelling

Latin

History & Geography

Science & Humanities

Clubs

OUR FOCUS

**YOUR
STUDENT**

**FREE.
ACCREDITED.
A RATED.
CHILDREN THRIVE HERE.**

Principal Ashley Schorer

Join the ATA Family!

On behalf of the ATA teachers and staff, I invite you to come take a tour of our campus and see for yourself why children thrive here. Please feel free to reach out with any questions you have. I hope to meet you soon!

Cordially,
Mrs. Schorer

Arizona Department of Education Report Card

Adams Traditional Academy

- A Rated School
- 97% Teacher Experience
- 30 of 30 Proficiency Points for Student Achievement
- 10 of 10 Acceleration Points for Student Readiness to Grade Progress
